

TIPPSWorks.com

TIPPSWorks is a subsidiary of Synko Associates, LLC. We are based in Ann Arbor, Michigan at the National Center for Manufacturing Sciences.

Since 1991, every service we offer is based upon helping individuals and organizations achieve and sustain global competitiveness. This broad-based approach ensures our staff is well informed and experienced in the complete skill set required to help our clients achieve long-term success through a series of short-term wins.

We believe you and/or your organization cannot afford to wait for long-term success. While we focus on the future - we also deliver the results our clients expect today.

Whether you are developing the core competencies of employees or executives, or establishing the foundation for value-added strategies such as Lean Manufacturing or Six-Sigma, our suite of one-on-one coaching or classroom processes provide a turnkey approach to accomplishing your objectives.
